

Goat Classes

Goat Education Classes with J & J Second Chance Small Holdings and The Goat Ladies

We're excited to offer hands-on goat education classes that can be held either at our location or at yours!

Please Note:

- If you'd like us to travel to your home or another location, a travel fee and minimum class size will apply.
- We bring goats with us for the hands-on portions of the class.
- Each participant will receive a USB drive containing all class materials, so you can print them for future reference.

Available Classes:

1. **Hoof Trimming** – Learn proper trimming techniques and why hoof balance matters. You'll get hands-on experience trimming a real hoof.
2. **Goat 101: Basics** – A general introduction to goat care, behavior, and needs.
3. **Goat First Aid** – Understand how to assess health concerns, communicate with your vet, and administer basic first aid.
4. **Introduction to Milking** – Covers both hand and machine milking techniques.
5. **Breeding & Birth** – Includes breeding practices, pregnancy care, birthing, and related medical concerns.
6. **Milk Use Basics** – Learn how to make simple products like farmer's cheese, butter, and more.
7. **Youth Classes** – Age-appropriate introductions to goats for children and young adults.
8. **Custom Classes** – Have a specific topic in mind? Let us know!

Some of our shorter classes can be combined for a custom session that fits your needs.

Interested in more information or booking a class?

Contact the team at **J & J Second Chance Small Holdings** to discuss class details, pricing, and scheduling options. We're happy to work with you!
