Goat Classes

– We can do these classes at our home or we can come to you!

*There is a drive fee and a class size requirement if you would like us to come to your home or other class area. *

– We offer many classes; these are hands on classes.

*We do bring goats with us for the hands-on parts. *

You will receive a jump drive with the class so you can print out a copy of the paperwork.

1. Hoof trimming – we walk you through how to trim and other things to know. You will actually trim a hoof and see how they need to be level for the goat to walk correctly.
2. Goat 101, Basic – this is an overview of general knowledge on goats.
3. Goat First aid – this class will help you know how to communicate to your vet about concerns and basic first aid
4. Beginning Milking – hand, machine milking
5. Breeding – Breeding, Pregnancy, Birth and Medical concerns
6. What do I do with the milk? – Basic Farmers Cheese, Butter and more
7. Youth classes of introduction to goats
8. Other classes

Some of these classes are shorter than others and then can be combined into a single class.

Team of J&J SCSH

If you would like more information on any of the above or would like to see if we will do another type of class, please contact us.
