Types of Event Setups

Here at J & J, we offer four basic types of setups to ensure we can effectively attend your events, with variations that can be tailored to accommodate different needs. This flexibility enables us to adapt to various Wyoming weather conditions and participate in a wide range of events.

In all of our setups we bring all that is needed for that set up. We will be bringing fencing panels, chairs, tables, hand sanitizer and everything for the goats. Every setup we bring for the goats; hay, brushes, outfits as requested and more.

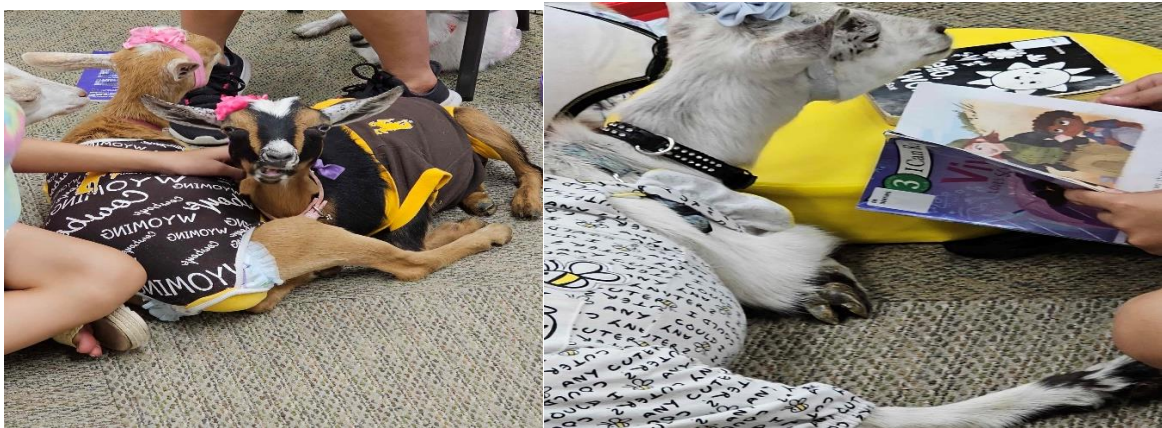

- 1.) **Outdoor setup** – This is where we setup a pen for those individuals that are participating. It takes between 30 min and 1 hr. to set up and teardown this is not included in your time. This can be as large as needed up to 50'x50'. We can setup in a clean parking lot or in a yard. We sweep and clean up as we go and before we leave.

2.) **Indoor setup** – This is where we setup an indoor stable; this has all of the above equipment along with we place three layers of plastic down on the floor prior to setting up the fencing and such. The first layer is 3mm plastic, then a canvas tarp to protect your floors, last is the silver tarp that is then wrapped around the fencing that is set on top of these three (3) layers. We then put down shaving and hay for the goats. We also have an extending tarp that is for when you step out to use the boot brushes so that your shoes are clean prior to leaving the area. This takes approx. 1 hr. to 1.5 hours to set up and teardown this is not included in your time.

3.) **Diapered setup** – This is at max a 2-hour event.

- a. **Type one (1)** -This is where the goats come to you wearing diapers and clothes so, no mess. They can ride in buggies or be carried from area to area. This is one we use for offices, hospitals and such. This takes approx. 20-30 min to set up and teardown this is not included in your time.
- b. **Type two (2)** – This is where we set up a fencing, chairs, tables but the goats are wearing diapers and clothes so no mess. This is used for indoor library reading events and birthday parties. As we have to carry and set up more it takes 1 – 1.5 hours to set up and teardown this is not included in your time.

4.) **We do have a convention setup** – This is a cross of all three and we can set up in a separate room that allows us to keep everything in one space and individuals can come and go as the convention progresses.
